EXPERIENCE

Full-Stack Platform Developer · Circular Solution Jul 2026 – Present

Full-time · Busan, South Korea · On-site

- Integrated Toss Payments and Polar across 4+ company platforms, covering subscriptions and one-time payments end to end.
- Built USDC stablecoin payments for B2B trade on the company marketplace, with MoonPay for fiat ramping.
- Built backend services in FastAPI, Spring Boot and NestJS, with React frontends.

`Python · FastAPI · Spring Boot · NestJS · React · Toss · Polar · USDC`

Full-Stack Engineer · TARMOQDA Dec 2025 – Jul 2026

Full-time · Uzbekistan · Remote

- Built a job posting platform end to end and owned the backend and APIs used by the mobile team.
- Integrated Hamkorbank card payments.

`TypeScript · Express · React · Vite`

Full-Stack Developer · SRZ MEMOR Mar 2025 – Nov 2025

Part-time · Namangan, Uzbekistan · Remote

- Built and maintained the company website for a construction materials manufacturer.
- Built and maintained custom internal tools for the company.

`TypeScript · Express · React`

SELECTED WORK

Breeze · 3rd place · DIVE 2025 github.com/nodiry/DIVE2025

Smartwatch app for safety at sea: tap-to-call emergency, typhoon alerts and AI fishing advice. I led the team.

`Swift · SwiftUI · Kotlin · Gemini · HealthKit`

USDC Wallet · Testnet demo wallet.glasscube.uz

USDC wallet on Base with gasless transfers and a MoonPay on-ramp.

`TypeScript · Express · MongoDB · viem · Coinbase CDP · React`

Secure Chat · Used by my team chat.glasscube.uz

End-to-end encrypted chat that stores nothing. My team shares credentials on it.

`TypeScript · Bun · Socket.io · Web Crypto · React`

SmartScheduler · Award-winning paper study.glasscube.uz

Graduation project: webcam focus tracking and adaptive study plans.

`TypeScript · React · MediaPipe · Three.js · Express · MongoDB`
